

Our international team of experts specializes in **state-of-the-art software, made from scratch, for print and scan management.** In a working environment that sets standards for flexibility and features. As drivers of innovation and integral members of the Canon Group, we have a strong partner on our side. We stay in constant communication from Bad Iburg, Germany with our colleagues in New York, Singapore, and Tokyo – and soon, hopefully, with you as our new team member!

TECHNICAL WRITER (M/F/D) DOCUMENTATION

This sounds amazing!

Are you a technical writer with professional experience under your belt writing technical documents for the software industry, and maybe even for the printing industry? Is your English at native-speaker level? Have you worked with a multilingual content management system, ideally Author-it? Can you quickly comprehend complex technical concepts and offer structured, clear explanations of them in English?

Indeed!

Experience?
Just a few months' worth.

We're looking for a professional. But we're always happy to take on rising stars! Our job board has the right position for you. Have a look: www.nt-ware.com/jobs

Our team of experts from over 35 countries is always in high spirits. In our "green building" in Bad Iburg, we collaborate to shape ideas and put them to the test. Our documentation department develops the technical white papers, operating manuals, and handbooks for our soft- and hardware products, and keeps them up to date. By the way: How about discussing our latest software products in English?

I love it!

I'm not yet that familiar with software products.

As a member of our team, you will soon be able to:

- create English-language handbooks and instruction manuals for our soft- and hardware products
- organize the terminology and UI text management
- coordinate the translations into German, Italian, French, Spanish, Japanese, and Chinese

No need to worry. Active testing with your colleagues in Development and Quality Assurance will help you quickly become acquainted with and understand our software.

Perfect match. Is there any information available concerning the so facts and benefits?

Unfortunately I don't think this is the right job for me :(

That's too bad, but please have a look at our other job ads in the career section of our website. Maybe you'll find what you're looking for there.

Any soft facts and benefits? Of course. We offer a super-flexible, highly modern, and well-equipped workspace with daycare, plus a company bonus plan, continued professional development, driver safety training, the option to work from home, and much more ... Convinced?

More good reasons for NT-Ware? You will find further information about our corporate culture at www.nt-ware.com/benefits

Definitely!
