

Who we are

Who we are

NT-ware is a leading-edge technology company specializing in the creation, development and support of print and scan management software. Our products are available in all major markets of the world with NT-ware providing direct technical, business and training support globally. NT-ware is located in Bad Iburg/Germany with subsidiaries in New York and Singapore.

Partnership with Canon

Canon Europe holds a 70 % stake in NT-ware. In Canon we have a strong business partner and customer. We cooperate in the fields of distribution, support and development.

The NT-ware Team

NT-ware is made up of people from a diverse background with more than 20 nationalities who work as a strong team towards common targets. We communicate with each other in English, German or a sound mixture of both. In any case: We always reach an understanding!
